1964

A chalk covered jacket, crooked tie, wisps of thinning blond hair and lanky limbs characterize Dick Bliss. He spends his free time in the Student Center talking frankly of life's perpetual difficulties. Mr. Bliss demands introspection of his adult students, hoping that they will live happy and stimulating lives both personally and socially. Perhaps his encouragement will enable most of us to reach this end.

We, the Class of 1964, are proud to dedicate this year-book to Mr. Richard Bliss, a teacher to many and a genuine friend to all.

# Who was picked to air condition the World's Fair House?

**Airtemp** *the cooling/heating division of Chrysler Corporation*

"Reliability and consumer acceptance." This was the yardstick used to select products for the World's Fair House in New York. Including air conditioning equipment from Airtemp.

Engineering breakthroughs by Airtemp over a quarter of a century ago made central home air conditioning practical in the first place. Today they offer you the broadest range of economical "packaged cooling" units available for home or business. Economical to install. Economical to operate. And matchless reliability.

Let Chrysler engineering protect your air conditioning investment. Simply call your Chrysler Airtemp dealer through the Yellow Pages. Or write Airtemp, Dept. 27, Dayton, Ohio.
